Mission Statement
The mission of the Peekskill City School District is to:

♦ Educate students in a caring, inspiring environment characterized by a spirit of excellence and high expectations;
♦ Prepare graduates to meet or exceed state standards.
♦ Graduate students who respect and appreciate cultural diversity;
♦ Prepare students to pursue adult lives as contributing citizens of our local and global community.

Peekskill High School & Community—Building Bridges of Excellence

Peekskill is a proud multi-culturally diverse community of 24,000 residents located 40 miles north of NYC on the beautiful banks of the Hudson River in Northern Westchester County. This small and tightly knit city is the home of a thriving visual and performing arts community along with unique and trendy restaurants serving as a destination point for the many communities in Westchester and NYC.

Peekskill High School (PHS) serves approximately 1,053 students in grades nine through twelve and interfaces with the many community resources available in Peekskill as well as the surrounding area. Our 100 plus professional staff deliver a multi-faceted educational program with pertinent experiences and opportunities for our students. Whether it is our State of the Profession approach to literacy, exemplary ENL program, unique and timely college level elective programs on Sexism and Racism, an award winning performing arts program in drama, musicals, and singing, or our award winning Robotics program which has exposed PHS to CTE Broadband Courses and being the host of the FTC Robotics Competition are a few examples of our commitment to school quality and the caliber of its teaching staff. The Summit Academy, our alternative learning program, provides an environment of individualized attention, differentiation, and focus on social and emotional learning to promote confidence and self-assurance.

Peekskill High School students have access to online and blended learning courses (i.e. Edgenuity and OC21), technical programs provided at the Board of Cooperative Educational Services (BOCES). The Peekskill Individualized Experience for Seniors (PIES) provides senior externships throughout the Peekskill community and Westchester County. While PHS does not require community service, the community outreach to our high school provides the majority of our students with hundreds of hours of voluntary service to our school and community.

## GRADUATION REQUIREMENTS

### English, 9, 10, 11, 12

4 Units - 1 credit each

### Global History/Geography I

1 Unit

### Global History/Geography II

1 Unit

### US History/Government

1 Unit

### Economics

.5 Unit

### Participation in Government

.5 Unit

### Mathematics

3 Units

### Science

3 Units

### Second Language (LOTE)

1 Unit

### Art/Music

1 Unit

### Physical Education

1 Unit

### Health Education

.5 Unit

### Electives

3.5 Units

### Total

22 credits

A student must also demonstrate competency through New York State education department examinations in Math, English, US History / Government, Global History / Geography and Science for a Local or Regents diploma.

### Class of 2017 Diploma Types

- Regents with Advanced Designation Honors: 5
- Regents with Advanced Designation: 13
- Regents Honors: 1
- Regents: 121
- Local: 37
- SACC: 12
- TASC: 1

### Class of 2017 Post Secondary Education

- Attending College: 134 (71%)
- Technical School, Military, Work: 56 (29%)
- Of those Attending College:
  - 4 yr. College: 53 (40%)
  - 2 yr. College: 81 (60%)

### Class Ranking

Class Rank is based on an average of final grades in all courses beginning with the first high school level course with the exception of physical education and Pass/Fail courses.

### Total Graduates in Class of 2017

Peekskill Science Research Program: The Peekskill Science Research (PSR) Program at Peekskill High School is an unique opportunity for students to experience the rigor and rewards of college-level scientific research while in high school. The three-year sequence of courses is offered in conjunction with SUNY Albany, and students have the option to earn up to 12 college credits. During their sophomore year, students learn research methods, choose a topic of interest, and conduct a literature review. During their junior year, students design an original experiment assisted by a mentor - a working scientist from the private or public sector, or a college or university professor. Students are encouraged to participate in internships during their junior and senior summers to complete their experiments. PSR students participate in local science fairs, and successful students may join the regional and national science fairs. To date, PSR program has won awards at Somers Science Fair, Junior Science and Humanities Symposium, and Westchester Science and Engineering fairs.

Putnam Northern Westchester BOCES: Students can gain a competitive edge by enrolling in one of 40 Career and Technical Education courses at PNW BOCES. Programs range from arts and humanities, business, engineering, health, human and public services, and natural and agricultural sciences.

BOCES New Visions Program: The New Visions programs at BOCES are academically rigorous one year programs for college bound seniors. These programs allow students to earn honors, AP and college credit while working with industry professionals. Many of the New Visions programs are located at sites where students can watch and learn from field practitioners in their work environment. Students who are interested in participating in New Visions programs must have a strong academic record and commitment to the selected career area.

Broadband Academy: Broadband Academy is a Certified Training Program that teaches students real-world skills using a hands-on-training approach. Students that complete this course can receive industry-recognized certifications. After obtaining an in-demand skill set, students are ready to enter the workforce. Students can earn certifications in: Telecommunications Technologies, Network Cabling: Copper Based Systems, Network Cabling: Fiber Optics Based Systems, Telephone Systems & VoIP, Home Entertainment Residential Audio/Video Systems, Energy Management Systems, and Grounding and Bonding: Copper Connectivity Systems.

OC21 (Online Courses for the 21st Century): Students have the opportunity to choose from eight dynamic online courses designed to expand their knowledge, interest and experience. Currently the courses are: Foundations of Engineering and Contemporary Construction Technology, You Are What You Eat: The Truth Behind Our Food; Sports Management, Media, Marketing and Analysis, Introduction to Anthropology, Brain Games, Zero To Sixty: Writing Your First Novel (A), Adventures in Programming, Beyond Mindfulness. Through a consortium of school districts, organized by PNW BOCES, students have the ability to learn alongside teachers and students from across our region. Utilizing a blended learning approach, students and staff collaborate through two face to face half-day meetings and online. Courses that are part of the OC21 program have a course number that begins with “OC”.
