## SECTION I GENERAL CONSIDERATIONS AND PLANNING GUIDELINES

### PURPOSE

Emergencies in schools are defined as undesirable events that occur and have the potential to cause injury or illness to members of our school community or disrupt the orderly educational process. They range from acts of bullying or harassment to catastrophic natural or man-made events. Emergency management is the discipline of dealing with and avoiding risks. It is a discipline that involves preparing for an emergency situation or disaster before it occurs as well as supporting and rebuilding from the emergency after natural or human-made disasters have occurred.

Emergency management in our schools is the continuous process by which our staff, students, administrators, parents, school groups, emergency responders and our community manages hazards in an effort to avoid or mitigate the impact of disasters resulting from hazards. Preventive measures and good planning will reduce the likelihood that emergencies will occur and allow us to address those that do in an expeditious and effective manner.

Districts are required to develop district-wide school safety and emergency management plans designed to prevent and effectively manage such events to minimize the effects of serious incidents and emergencies. These plans also facilitate the coordination of the District with local and county plans and resources when incidents and emergencies occur.

The district-wide plan is responsive to the needs of all schools in the District and is consistent with the more detailed building-level emergency plans. Districts are vulnerable to a wide variety of acts of violence; and natural and manmade disasters. To address these threats, the State of New York has enacted the Safe Schools Against Violence in Education (S.A.V.E.) law. Project S.A.V.E. is a comprehensive planning effort that addresses prevention, response, and recovery with respect to a variety of emergencies in schools.

The Peekskill City School District supports the S.A.V.E. legislation. As such, the Superintendent of Schools, Board of Education, and the entire District staff encourages and advocates on-going district-wide cooperation in support of Project S.A.V.E.

#### PROACTIVE BUILDING SECURITY MEASURES

1. The District buildings use limited points of entry. All doors are locked. Signs are in place directing visitors to sign-in at the reception desk at each school. Main doors are controlled by remote “buzzer” entry during normal school hours.
2. All schools have greeters or office staff members just inside the entrance to each school in the District. These individuals ensure visitor sign-in procedures and help supervise building traffic flow. The building principals are responsible for supervision of the greeters and other staff.
3. Staff members are required to wear visible identification badges.
4. Visitors are required to sign in and wear visitor identification.
5. Visitor access is limited to specific areas of the school building.

#### VITAL EDUCATIONAL INFORMATION<sup>37</sup>

Information on each building’s student and staff, transportation needs, and the telephone numbers of key officials are outlined in each Building-level Emergency Response Plan. The purpose of including such information in the Building-level plan is to ensure coordination or coverage in the event of a serious incident.

#### EARLY DETECTION OF POTENTIALLY DANGEROUS BEHAVIOR<sup>38</sup>

This section contains the District policy and procedure for disseminating information regarding early detection of potentially dangerous behavior.

---

<sup>37</sup> 155.17(i) Except in a school district in a city having a population of more than one million inhabitants, the chief executive officer of each educational agency located within a public school district shall provide to the superintendent of schools information about school population, number of staff, transportation needs and the business and home telephone numbers of key officials of such educational agencies.

<sup>38</sup> 155.17(c)(1)(xii) policies and procedures for the dissemination of informative materials regarding the early detection of potentially violent behaviors, including but not limited to the identification of family, community and environmental factors to teachers, administrators, school personnel including bus drivers and monitors, persons in parental relations to students of the school district or board, students and other persons deemed appropriate to receive such information;

1. A “plain language” summary of the District’s Code of Conduct is provided to all students in the District at the start of every school year to ensure that all students understand acceptable behavior in the school setting. The Code of Conduct delineates, among other behavior, lack of tolerance for harassment, discrimination, bullying and violence.
2. A “plain language” summary of the District’s Code of Conduct is mailed or emailed to all parents/guardians of students in the District at the start of each school year, and is disseminated at the time of registration thereafter.
3. All new employees will be provided with a copy of the Code of Conduct at the time of hire. All teachers and other staff members will be provided with a copy of the Code of Conduct annually.
4. Efforts are made on the building level in each of the District’s schools to identify, prevent, and resolve potentially dangerous behavior at the earliest possible stage. Teams meet regularly in each building in order to work with classroom staff in identifying and preventing potentially dangerous behavior. School counselors, school psychologists, school social workers, nurses, outside agencies (when appropriate), administrators, teachers, parents/guardians and students may be involved in this process.
5. District students at all grade levels participate in instruction guided by evidence-based violence prevention/intervention programs. Elements of these programs support students in identifying potentially violent or problematic situations with peers and in developing strategies to address these such as reporting to an adult.
6. Secondary health curricula incorporate information regarding emotional health, the impact of drugs and alcohol on an individual’s behavior, and on responsible decision-making.
7. Each of the District’s school psychologists/social workers may facilitate counseling groups for identified students around issues related to poor social skills development, managing emotions, and good decision-making.
8. Certified and noncertified staff members working with students who have been identified by the Committee on Special Education as being at-risk for engaging in violent behaviors receive annual training in crisis prevention and intervention.
9. The District may work in collaboration with building-level and District-wide PTAs to offer parents/guardians information regarding early-warning signs of potentially dangerous and/or violent behavior, as well as a forum to discuss specific parental concerns.

#### POLICE AGENCIES

The District buildings fall within the jurisdiction of the following police departments:

## SECTION III RESPONSE

### NOTIFICATION AND ACTIVATION - INTERNAL AND EXTERNAL COMMUNICATIONS

#### INTERNAL

After receiving the information from the Incident Commander at the scene, an email will be sent from the Superintendent's office to all administrators and administrative offices alerting them to the nature and status of any incident in the district. The mass communication system may be used to provide information as deemed appropriate by the Incident Commander. Portable radios will also be used when possible.

#### EXTERNAL

Anyone with knowledge of an emergency event is encouraged to immediately call 911.

The District's mass communication system will be used to provide information to parents/guardians and emergency contacts. The District website may also be used to provide updated information throughout an incident as deemed appropriate by the Incident Commander. Schools may also use their websites, groups, and hotlines for announcements or updates as directed by the Incident Commander.

When an emergency requires notification of staff, the Superintendent or his designee will provide updated information to parents and students through the emergency notification system. Additional information may also be found on the District's website: <https://www.peakskillcsd.org/>

The Building-level Emergency Response Team (BERT) consisting of trained staff and school personnel may assist with an Evacuation, Lockout, Shelter-in-Place, Hold-in-Place, or Early Dismissal and will follow the appropriate protocol (see appendices for further information). The Incident Command System (ICS) under the National Incident Management System (NIMS) should be followed as closely as possible to ensure good coordination between the building-level teams, District leadership, and responding agencies.
4. If the threat of violence or danger is imminent, a Lockdown may be utilized. A Lockdown is time sensitive and therefore may be requested by any school staff member based on the incident and timely need for the Lockdown. During the Lockdown, all school staff, students, and visitors (including all BERT members) are required to Lockdown in the nearest lockable space and await further instruction, or in some situations, evacuate the campus.
5. Procedures for contacting parents, guardians and persons in parental relation to students in the event of a violent incident or early dismissal are detailed in each building-level emergency plan. The use of the District's mass communication system is typically utilized.

The Peekskill City School District is committed to creating a learning environment that protects student and staff health, safety and privacy. Our district will operate under a standard procedure for addressing situations in which an individual has tested positive for COVID-19 or appears symptomatic. These procedures include:

#### **School Health Offices**

When a student, faculty or staff develop COVID-19 symptoms during the school day, they will be moved to an isolation room and assessed by a registered nurse for any immediate medical needs. The health staff will be wearing proper PPE. If it is a student who is ill, the parent will immediately be called and asked to pick the student up as soon as possible. When the parent picks up the student, written instructions will be provided. If it is faculty or staff, and the person is medically stable they will be sent home with instructions. If the faculty or staff member is too ill a family member will be called to pick them up. Instructions given to faculty, staff and students will ask them to stay home, isolate and call their medical practitioner as soon as possible. The instructions will also include a list of testing sites and the health offices phone number in case they have questions once they get home.

#### **Isolation**

If a faculty or staff member screens positive upon arrival and are well enough to leave they will be asked not to enter the building. A written set of instructions will be given to them at the door. If the faculty, staff are too ill or if a student has a positive screen, they will be brought into an isolation room to be evaluated by a registered nurse. The health staff will be wearing appropriate PPE including an N95 mask, gloves, and protective eyewear. The immediate medical needs will be taken care of by the nurse. Parents or family of staff members will be contacted to pick up the ill person. Instructions will be given to parent or ill staff members before they leave with a sick child or staff member.

#### **Collection**

Parents/guardians picking up a sick or symptomatic child will be asked to wait outside. The nurse or health aide will escort the sick child out to the parent with written instructions. The parent/guardian will be asked to contact their health care provider as soon as possible. The child will not be able to come back to school until at least 10 days from the first time they begin experiencing symptoms, and they are fever free for 72 hours without the use of fever-reducing medication, and all other symptoms have improved. If the child is tested for COVID-19, they will require two negative COVID-19 tests at least 24 hours apart. If they are not tested a doctor's note would be needed to return to school.

#### **Infected Individuals**

Individuals who have tested positive for COVID-19 will not be permitted to return to school unless they have undergone isolation and are fully recovered. A symptomatic COVID-19 positive person will also need two negative tests in a row, at least 24 hours apart. A person who tested positive for COVID-19 with no symptoms will need a doctor's release before returning to school, as per the DOH and CDC guidelines.

#### **Exposed Individuals**

Individuals who have been exposed to COVID-19 will not be permitted to return to school unless they have undergone isolation and are fully recovered. Individuals with exposure to COVID-19 will be required to quarantine for 14 days. They will be able to return to school after 14 days unless the person becomes ill and develops COVID-19 symptoms, then they will follow the instructions for infected individuals.

#### **Hygiene, Cleaning and Disinfection**

The district will adhere to and promote the hygiene, cleaning and disinfection guidance set forth by DOH and CDC, including strategies for cleaning and disinfection of exposed areas and appropriate notification to occupants of such areas. Areas in contact with ill persons will be closed and well staff and students moved to a clean area for the rest of the day.

### ***Cleaning***

The district will adhere to hygiene, cleaning, and disinfection requirements from the Centers for Disease Control and Prevention (CDC) and the Department of Health (DOH) in addition to the following:

- Classroom and office spaces will be provided with appropriate cleaning /disinfection supplies for self-cleaning of shared and frequently touched surfaces.
- The custodial staff of each building will perform frequent cleaning of high touch surfaces throughout the school day, including:
  - door handles
  - rails
  - counters
  - tabletops
  - bathroom fixtures
  - trash cans
  - phones
  - cash register counters
  - Daily cleaning log checklists will be completed for each area of the building
- Registered disinfectants identified by the [Environmental Protection Agency \(EPA\)](#) as [effective against COVID 19](#) will be utilized.
- Logs will contain the following at a minimum:
  - Date of cleaning
  - Time of cleaning
  - Scope of cleaning (checkboxes)
- The head custodian of each building will be responsible for maintaining all completed cleaning logs, making sure they are completed properly, which a copy will be forwarded to the Director of Facilities on a weekly basis.
- Staff will be required to use applicable personal protective equipment to perform cleaning and disinfecting.
- If buildings are closed for seven days or more, normal routine cleaning will be performed. This is because the virus that causes COVID-19 has not been shown to survive on surfaces longer than this time.
- Cleaning and Disinfecting training will be provided to all employees (see [Training](#) section) including:
  - Hazards of the cleaning chemicals used in the workplace in accordance with OSHA's Hazard Communication standard
  - Cleaning and disinfection protocol for suspected and positive cases
  - Personal Protective Equipment (PPE):
    - When to use PPE
    - What PPE is necessary
    - How to properly don (put on), use, and doff (take off) PPE

■ How to properly dispose of PPE

The terms cleaning, sanitizing, and disinfecting are sometimes used interchangeably, which can lead to confusion and result in cleaning procedures that are not effective<sup>[1]</sup>.

For example, if there is visible soil on a surface, clean it with detergent and water before spraying the surface with a sanitizer or disinfectant. Using a sanitizer or disinfectant as this “first step” is not effective because the purpose of the solution is to either sanitize or disinfect. Each term has a specific purpose, and there are many methods that may be used to achieve such a purpose.

Task	Purpose
Clean	To remove dirt and debris by scrubbing and washing with a detergent solution and rinsing with water. The friction of cleaning removes most germs and exposes any remaining germs to the effects of a sanitizer or disinfectant used later.
Sanitize	To reduce germs on inanimate surfaces to levels considered safe by public health codes or regulations.
Disinfect	To destroy or inactivate most germs on any inanimate object, but not bacterial spores.

Note: The term “germs” refers to bacteria, viruses, fungi, and molds that may cause infectious disease. Bacterial spores are dormant bacteria that have formed a protective shell, enabling them to survive extreme conditions for years. The spores reactivate after entry into a host (such as a person), where conditions are favorable for them to live and reproduce.<sup>[2]</sup>

Only the U.S. Environmental Protection Agency (EPA)-registered products that have an EPA registration number on the label can make public health claims that can be relied on for reducing or destroying germs. The EPA registration label will also describe the product as a cleaner, sanitizer, or disinfectant. In addition, some manufacturers of cleaning products have developed “green cleaning products”. As new environmentally-friendly cleaning products appear in the market, check to see if they are 3rd party certified by Green Seal: <http://www.greenseal.org>, UL/EcoLogic: <http://www.ecologo.org>, and/or EPA's Safer Choice: <http://www.epa.gov/saferchoice>. Use fragrance-free bleach that is EPA-registered as a sanitizing or disinfecting solution (6). If other products are used for sanitizing or disinfecting, they should also be fragrance-free and EPA-registered (7). All products must be used according to the manufacturer's instructions. The following resource may be useful: [Green Cleaning, Sanitizing, and Disinfecting: A Toolkit for Early Care and Education](#).

Employers should provide staff with hazard information, including access to and review of the Safety Data Sheets (SDS) as required by the Occupational Safety and Health Administration (OSHA), about the presence of toxic substances such as cleaning, sanitizing and disinfecting supplies in use in the facility. The SDS explains the risk of exposure to products so that appropriate precautions may be taken.

### **Contact Tracing**

The district will support local health departments in contact tracing efforts using the protocols, training and tools provided through the New York State Contact Tracing Program, an initiative between the Department of Health, Bloomberg Philanthropies, Johns Hopkins Bloomberg School of Public Health and Vital Strategies. Peekskill City School District health staff will be trained in contact tracing and will assist in contact tracing when there is exposure within our schools. We will rely on local health department officials, as directed, to contact anyone who needs to be notified in the event of a possible exposure.

### **Communication**

In the event that a student or staff member is sick or symptomatic, notification to exposed individuals will occur pursuant to the state's contact tracing protocols as implemented by the local health department. The district will not notify the wider community unless specifically directed to do so by local health officials.

### **Closures**

The district is preparing for situations in which one or more school buildings need to close due to a significant number of students or staff testing positive for COVID-19 or a considerable regional increase in COVID-19 cases.

Each medical office will keep track of the amount of ill staff and children who go home. If there is an increase in illness and absenteeism within the school, the nurses will make the district health office aware and their building administrator. The nurse coordinator will notify the superintendent and DOH. Decisions for closures will be made with the guidance of the local health department. The district may choose to modify operations in one or more schools prior to closing to help mitigate a rise in cases. The district will consult its nurse coordinator— medical director in collaboration with the district superintendent and the local health department when making such decisions.

School building administrators will communicate with each other regularly and, if needed, will consult with the nurse coordinator, district superintendent and local health department to consider closing school if absentee rates impact the ability of the school to operate safely.

### **Identifying positive COVID-19 cases**

Mr. Jamal Lewis, Carmine Crisci and Austin Goldberg will serve as the district's COVID-19 Coordinators. They will work closely with our local health department and will be responsible for the day to day communication. He, or his appropriate designee, will serve as a central contact for schools and stakeholders, families, staff and other school community members and will ensure the district is in compliance and following the best practices per state and federal guidelines.

### Screening, testing, tracing and tracking

The district will immediately notify the state and local health department of any and all confirmed student, staff or visitor cases of COVID-19. The district medical (nurse's) office will be notified when there is a positive case in any of our buildings within the district. Only nurses and Covid Coordinators that have contact tracing training will be given information for the sole purpose of disseminating information to affected individuals as quickly and efficiently as possible. The ill person's information will be kept confidential.

- 
- All entrances will be locked and monitored by the security aides/greeter.
  - All employees will complete the daily screening survey and use their access cards for entrance which documents their arrival on premises.
  - Payroll, attendance, and/or time cards will further document an employee's presence on campus.
  - Non-essential visitors will not be allowed on site without approval from building administrators
- 

Emergency housing for essential workers is not normally needed for school employees as they will either go home or directly to the hospital. If needed, the district will arrange for emergency housing for essential workers with the RED CROSS who will use our local hotels if needed.

---

OTHER Any other requirements determined by the Department of Health such as contact tracing or testing, physical distancing, hygiene, and disinfectant, or mask-wearing.

### IDENTIFICATION OF DISTRICT RESOURCES WHICH MAY BE AVAILABLE FOR USE DURING AN EMERGENCY<sup>44</sup>

District resources are available in each building and stored in a central location. Each building will designate a Command Post. The list, which is not meant to be inclusive, requires the following items:

- Copy of District-Wide School Safety Plan
- Building-level Emergency Plan
- Quick reference Emergency Management Procedures
- List of emergency telephone numbers
- Building floor plans
- Telephones
- Radio communications
- Flashlights
- Photocopier

- Telephone numbers for parents/guardians Information about emergency needs (e.g. students/staff that require medications, vehicular transportation issues, etc.)
- School and staff census information

#### COORDINATION AND SCHOOL DISTRICT RESOURCES AND MANPOWER DURING EMERGENCIES<sup>45</sup>

The District will, as appropriate, utilize all available manpower during an emergency. Within each building, schools may use the Staff All Call response protocol, which quickly summons all available staff members to a staging area for assignments. Coordination of available employees is typically performed by the Principal or their designee. Specific job duties will be assigned based on the type of emergency and in compliance with the appropriate district and building emergency response procedure. Additional district resources may be requested by any building administrator or designee as needed. The Superintendent or their designee will call in all available maintenance and custodial staff to provide support during an emergency as needed. Assistance from outside government agencies may also be requested. A specific list of available resources may be found in Appendix 4 of this plan.

#### PARTICIPATING IN UNIFIED COMMAND UNDER ICS PRINCIPLES

##### ASSIGNMENT OF RESPONSIBILITIES

A chain of command consistent with the National Interagency Incident Management System (NIMS)/Incident Command System (ICS) will be used in response to an emergency. Members of the School, Emergency Response Team, will be part of this system. In the event of an emergency, the response team will adopt NIMS/ICS principles based on the size, scope, and character of the emergency.

1. All administrators and Building-level Emergency Response Teams members shall complete the incident command training level one.
2. All District Emergency Response Team members shall complete incident command training level one and level two.

## EMERGENCY REMOTE INSTRUCTION

### OVERVIEW

The District may offer eLearning days to students in the event-of-an-emergency condition, including, but not limited to, extraordinary adverse weather conditions, impairment of heating facilities, insufficiency of water supply, shortage of fuel, destruction of a school building, or a communicable disease outbreak.

When making decisions about remote instruction, the District will consult with students, parents, teachers, administrators, community members, and other stakeholders as appropriate. When implementing remote instruction, the District will ensure that it is complying with applicable teaching and learning requirements.

### DEFINITIONS

- A. "Asynchronous instruction" means instruction where students engage in learning without the direct presence (remote or in-person) of a teacher.
- B. "Non-digital and/or audio-based instruction" means instruction accessed synchronously and/or asynchronously through paper-based materials where the student to teacher interaction occurs via telephone or other audio platforms.
- C. "Remote instruction" means instruction provided by an appropriately certified teacher who is not in the same in-person physical location as the student(s) receiving the instruction, where there is regular and substantive daily interaction between the student and teacher.
  - 1. Remote instruction will encompass synchronous instruction provided through digital video-based technology and may also include asynchronous instruction intended to complement synchronous instruction. Digital video-based technology includes online technology and videoconferencing technology.
  - 2. Remote instruction may encompass non-digital and audio-based asynchronous and/or synchronous instruction where this instruction is more appropriate for a student's educational needs.
- D. "Synchronous instruction" means instruction where students engage in learning in the direct presence (remote or in-person) of a teacher in real time.

### FORMATS AND METHODS OF REMOTE INSTRUCTION

Remote instruction may be delivered through a variety of formats and methods. Determinations about how to best deliver remote instruction will take into account a variety of factors including, but not limited to, the number of students involved, the subject matter, the students' grade levels, and technological resources of both the District and students. Consideration will also be given to whether accommodations need to be made for students with disabilities or English language learners. Each school's Building-level Emergency Response Plan will contain this confidential information in the Continuity of Instruction Plan (COIP) section.

#### INSTRUCTIONAL OPTIONS

The District may engage students in synchronous and asynchronous learning on days of remote instruction under emergency conditions with an expectation that asynchronous instruction is supplementary to synchronous instruction. When remote instruction by digital technology is unavailable, appropriate special accommodations for students will be made to aid their learning. For those students for whom digital technology is unavailable, the provision for alternative paper based materials for instruction will be given if an extended period of time ensues beyond the existing emergency condition.

#### COMPUTER AND CONNECTIVITY ACCESS FOR STUDENTS

The District will ensure that students have the necessary equipment at home to participate in eLearning.<sup>46</sup> No later than June 30th of each school year, the Superintendent will report to the Commissioner of Education the results of the survey on student access to computing devices and access to Internet connectivity on a form and format prescribed by the Commissioner.<sup>47</sup> The information received from the survey will aid in the development/updates to the detailed Continuity of Instruction Plan in each school's Building-level Emergency Response Plan.

#### MINIMUM INSTRUCTIONAL HOURS

Remote instruction provided on days when the District would have otherwise closed due to an emergency condition may be counted toward the annual hourly requirement for the purpose of state aid. The Superintendent will certify to the New York State Education Department, on a form prescribed by the Commissioner, that an emergency condition existed on a previously scheduled school day and that the District was in session and provided remote instruction on that day and indicate how many instructional hours were provided on that day and certify that remote instruction was provided in accordance with the District's emergency remote instruction plan.

#### REMOTE INSTRUCTION SUPPORT

As necessary, the District will provide instruction on using remote instruction technology and IT support for students, teachers, and families. The District will also work to ensure that teachers and administrators are provided with professional development opportunities related to designing an effective remote instruction experience.

---

<sup>46</sup> 155.17(xxi)(a) ensure computing devices will be made available to students

<sup>47</sup> 155.17(f)(2) Beginning in the 2022-2023 school year, each chief executive officer shall report to the Commissioner, no later than June 30 of each school year, on a form and format prescribed by the Commissioner, the results of the survey on student access to computing devices and access to internet connectivity

#### COMPLIANCE WITH DISTRICT POLICIES, PROCEDURES, AND THE CODE OF CONDUCT

Teachers and students are required to comply with any and all applicable District policies, procedures, and other related documents as they normally would for in-person instruction. Examples include, but are not limited to, the District's policies and procedures on non-discrimination and anti-harassment, acceptable use, and copyright. Students will also be required to abide by the rules contained within the *Code of Conduct* at all times while engaged in remote instruction. Violations of the *Code of Conduct* and/or engaging in prohibited conduct may result in disciplinary action as warranted.

#### PRIVACY AND SECURITY OF STUDENT AND TEACHER DATA

The District will take measures to protect the personally identifiable information of students and teachers from unauthorized disclosure or access when using remote instruction technologies in compliance with law, regulation, and District policy. Examples of these measures include, but are not limited to, minimizing the amount of data shared to only that which is necessary, de-identifying data, and using encryption or an equivalent technical control that renders personally identifiable information unusable, unreadable, or indecipherable to unauthorized persons when transmitted electronically.

## SECTION IV COMMUNICATION WITH OTHERS

Parental notification procedures for a student involved in disciplinary situations shall be consistent with the Code of Conduct and New York State law, and shall be presented clearly and concisely to staff and students each year.

## SECTION V RECOVERY

### CONTINUITY OF OPERATIONS

This district maintains continuity of operations at both the district and building level to ensure that essential functions continue during an emergency and its immediate aftermath. Essential functions include business services (payroll and purchasing), communication (internal and external), computer and systems support, facilities maintenance, safety and security, and continuity of instruction. Specific continuity plans are contained within each Building-level Emergency Response Plan.

### CONTINUITY OF INSTRUCTION

The District offers a suite of online instructional tools that can be used to support remote instruction and communication. General instructional tools for communicating with students include online services including:

- Google Drive with shared folders
- GSuite (Docs, Sheets, Slides, Forms, Classroom, Sites)

*Note: The local public Library online resources are available remotely and can be accessed by students who have a library card.*

### DISTRICT SUPPORT FOR BUILDINGS

When the Chief Emergency Officer is notified that an emergency exists, he/she will respond accordingly.

Members of the District Safety Team will assist as needed either at their respective Building Command Posts or by responding where directed by the Incident Commander(s). The District Safety Team will assign such other personnel as deemed necessary to meet the needs of the situation.

The District Safety Team members will remain at their assigned posts until the Incident Commander(s) has determined that the emergency is over, or it is unsafe, or no longer necessary to remain, or need to relocate.

Should the incident involve a single building, at the discretion of the District Safety Team leader in consultation with that building's administrators and Building Emergency Response Team (BERT), other school buildings may be called to support the Building Emergency Response Team in that building.

Should the incident involve multiple buildings, at the discretion of the District Safety Team leader, in consultation with building administrators, additional mental health support from the County Crisis Team and local area hospitals may be solicited to support the Emergency Response Teams in the affected building(s).

In any case, a "debriefing", or post-incident analysis, will be facilitated by the District Safety Team. This process will include a review of the actual incident, the Team's response to the incident, and post-traumatic incident debriefing.

District clinicians (or, mental health professionals from outside agencies if they have been involved) will provide ongoing as-needed support to the Team members, and will monitor post-traumatic stress symptoms in team members. As appropriate, team members may be provided with a referral to EAP and/or with information regarding private mental health providers in the area.

Principal(s) are expected to consult with the District Public Information Officer in composing letters to parents following any emergency. The District's Public Information Officer will assist in sending mass communication messages to affected groups. The District's Liaison Officer will communicate with outside agencies, such as the County Health Department, to provide necessary services following any emergency.

#### DISASTER MENTAL HEALTH SERVICES

The District Liaison Officer will communicate with outside agencies, such as the County Health Department, to provide necessary mental health services following any emergency. District mental health providers may be temporarily reassigned to assist in the recovery process.

## APPENDIX 2 – BUILDING-LEVEL EMERGENCY RESPONSE PLANS

Due to the sensitive safety and security information contained in each Building-level Emergency Response Plan, these plans are confidential and not available for public dissemination. Copies of plans are maintained at each school building and the District office.

### APPENDIX 3 – MEMORANDA OF UNDERSTANDING

Any applicable Memoranda of Understanding relevant to implementation of the District-wide and Building-level Emergency Response Plans are on file in the district office.

**Commented [3]:** If the District has a Security MOU on file with local PD for SROs or a security staffing agency, it should be added here. I can assist, if needed.

Please note, MOUs should be fully executed with signatures.

It is recommended you consult with your legal counsel to ensure compliance with NYSED regulations defined here. Per a representative from NYSED in March of 2023, while the district-wide school safety plan must be reviewed, updated and adopted annually, the statutory language related to the MOU requirement does not explicitly state that it has to be updated and adopted annually. Generally, a MOU will state how long it is in effect for, district leaders should use whatever time period was specified in the MOU as their guide for how often to revisit, unless there are comments or concerns that are received about the terms of the MOU during the school year. If the MOU does not specify how long it is in effect for, the safety team should include review of the MOU as part of their annual review and update of the district-wide school safety plan.

**Commented [DS4R3]:** SRO MOU will be signed by the BOE on August 28<sup>th</sup> and added to the plan.
