

NEVER FORGET

This year is the first year that students will enter our schools in kindergarten and were not yet born. Let us continue to honor and celebrate those lives lost on September 11, 2001. Gone but not forgotten!

I don't just want just to remember that 9/11 happened. I don't want it to become history, at least nor mere history. I want to remember how it felt, what it meant. By keeping the memory alive I can keep the feel of the day both distant and immediate. I hope the same for you.
