Vision: The Peekskill City School District is a community of learners who collaborate, explore, and seamlessly apply technology throughout all aspects of teaching and learning.

We will provide diverse opportunities to integrate technology throughout instruction within a secure and equitable digital environment to become innovative, successful, and responsible members of a global information-rich society.

Goals:
1. Provide district public-facing websites and digital content to ensure compliance with WCAG 2.0 regulations under the Americans with Disabilities Act.

2. Reinforce systems and processes to ensure all student data is protected and compliant with federal and local laws pertaining to data privacy and security. This includes training for professional staff regarding best practices for protecting student privacy and data.

3. Provide a district wide technology rich environment that supports an aligned rigorous curriculum which integrates and includes Computer Science and STEAM.
Our Mission is to educate and empower all students to strive for excellence as life-long learners who embrace diversity and are contributing members of a global society.
